MEMORANDUM FOR THE RECORD

SUBJECT: Preliminary Report on Briefcase Incident

25X1

Bill Miller, Staff Director, Senate Select Committee on Intelligence, called to give us a preliminary report on the briefcase incident. He said that while the investigation was still preliminary, it appeared there was no compromise of the material inside the briefcase. He said that the investigators seemed to know where the briefcase was at all times, who had handled it, and also felt there had been no copying of the material inside. He also said that the persons who had come in contact with the briefcase would not have been able to comprehend the material involved. He said he would give us a fuller report when the investigation had proceeded further.
